## REZNOR® Electric Heating Equipment

|                                    | Model   | Description  | Page No. |
|------------------------------------|---|--|----------|
| UNIT<br>HEATERS                    | EGE   | Forced Air Unit Heaters, 2 - 40 kW   | 2        |
|                                    | EGH   | Heavy Duty Forced Air Unit Heaters, 15 - 50 kW   | 4        |
|                                    | EXU   | Explosion Proof Forced Air Unit Heaters, 3 - 30 kW   | 6        |
| CONVECTION<br>HEATERS              | EPH   | Control Panel and Pump House Heater, 50 - 600 W  | 10       |
|                                    | ECV   | Heavy Duty Convection Heater, 2 - 3 kW   | 11       |
|                                    |   | Explosion Resistant Convection Heaters, General Information  | 12       |
|                                    | EXCA  | Explosion Resistant Convection Heater for Small Enclosed Spaces,<br>Providing Freeze Protection, 50 - 550 W          | 13       |
|                                    | EXCB  | Heavy Duty Explosion Resistant Convection Heater, 50 - 5,000 W   | 14       |
| DUCT<br>HEATERS                    | EDFF  | Flanged, Air Duct Heater, 2.5 - 62.5 kW  | 16       |
|                                    | EDIF  | Insert, Air Duct Heater, 2.5 - 62.5 kW   | 16       |
| INFRARED<br>HEATERS                |   | <a href="#">General Information</a>  | 20       |
|                                    | ERI Series  | Process Heating Radiant Heaters, 1 - 10 kW   | 21       |
|                                    | ERIC  | with a Singular Tubular Element  | 21       |
|                                    | ERIE  | with Double Tubular Heating Elements   | 21       |
|                                    | ERIR  | with Hairpin Tubular Heating Element and Moisture Resistant Housing  | 21       |
|                                    | ERIQT   | with Quartz Tube Heating Element   | 22       |
|                                    | ERIQF   | with Double Quartz Heating Elements  | 22       |
|                                    | ERIQL   | with Quartz Lamp Heating Element   | 22       |
|                                    | ERIH  | Heavy Duty Infrared Heater with Double Tubular Heating Elements  | 22       |
|                                    | ER Series   | Comfort Heating Radiant Heaters, 1 - 6.2 kW  | 24       |
|                                    | ERC   | with Single Tubular Heating Element  | 24       |
|                                    | ERE   | with Double Tubular Heating Elements   | 24       |
|                                    | ERQT  | with Quartz Tube Heating Element   | 24       |
|                                    | ERQL  | with Quartz Lamp Heating Element   | 25       |
|                                    | ERH Series  | Heavy Duty Comfort Heating Radiant Heaters, 1 - 6.5 kW   | 25       |
| ERHC                               | with Single Tubular Heating Element                                 | 25   |          |
| ERHR                               | with Hairpin Tubular Heating Element and Moisture Resistant Housing | 25   |          |
| ERHQT                              | with Quartz Tube Heating Element                                    | 25   |          |
| PACKAGED<br>CIRCULATION<br>HEATERS |   | General Information, Water Heaters 6 - 60 kW   | 26       |
|                                    | EPWP  | for Commercial Pool Water Heating  | 27       |
|                                    | EPWD  | for Domestic Water and Dishwasher Booster Heating  | 27       |
|                                    | EPWH  | for Comfort or Process Water Heating   | 27       |
| PACKAGED<br>STEAM<br>BOILERS       |   | General Information, Steam Boilers   | 28       |
|                                    | EVS-10  | Steam Boiler, 9 - 108 kW   | 29       |
|                                    | EVS-20  | Steam Boiler, 120 - 270 kW   | 29       |
|                                    |   | Packaged Steam Boiler Options  | 30       |
| PACKAGED<br>HOT WATER<br>BOILERS   |   | General Information  | 33       |
|                                    | EVWB-10   | Hot Water Boiler, 12 - 150 kW  | 34       |
|                                    | EVWB-20   | Hot Water Boiler, 165 - 585 kW   | 35       |
| CONTROLS<br>ACCESSORIES            |   | <a href="#">Industrial Thermostats</a> (Options IT)  | 37       |
|                                    |   | <a href="#">Thermoswitch Controller</a> for Hazardous Locations (Options IX)   | 37       |
|                                    |   | <a href="#">Explosion Resistant Thermostats</a> (Options IX)   | 38       |
|                                    |   | <a href="#">Explosion Resistant Housings</a> (Options EX) and <a href="#">Track and Trolley Systems</a> (Options TS) | 40       |
|                                    |   | <a href="#">Control Panels</a> (Options ECPB and ECPA)   | 42       |
| TECHNICAL<br>DATA                  |   | Electrical Circuits  | 43       |
